# QK-CSK Controller Starter Kit

## QK-CSK Controller Starter Kit

The QK-CSK pictured includes all syringe barrels, adapter assemblies, and the most popular pistons and dispense tips.

## QuantX™ Syringe Barrels

QuantX™ syringe barrels feature a highly accurate manufacturing process that combines minimal resistance and parallel uniformity over the length of the syringe barrel.

Manufactured from premium grade silicone-free polypropylene, these syringe barrels are available in clear for non-UV materials, amber for UV protection up to 550nm, and opaque black for maximum light protection.

All barrels are designed with a round base to fit Quantx™ barrel adapter assemblies.

## QuantX™ Pistons

### Evenpress™ Piston Selection

Smooth flow green pistons prevent air entrapment and material waste by wiping the syringe barrel wall clean.

Flat wall blue pistons are recommended for reducing potential stringing and bouncing when dispensing high-viscosity fluids.

Low viscosity orange pistons are used for preventing dripping of watery fluids and accidental back-flow into the dispenser.

Soft black rubber pistons are used to prevent tunneling in high-viscosity fluid materials.

QuantX™ syringe barrel adapter assemblies are provided with a convenient push-to-connect fitting to connect to the controller from the syringe barrel. Fitted with Buna Nitrile O-rings.

They are available with two hose lengths and optional micron filter-trap to prevent entry of fluids and fumes into the controller.

Green push-to-connect fitting comes assembled on all barrel adapter assemblies. For use with Fisnar DC50, DC100, and DC200 controllers.

Black bayonet fitting also included for connection to quick-connect style controllers.
